**Summary** — Enthusiastic full-stack developer with hands-on experience in building scalable web applications using Django, Laravel, Node.js, NestJs and React. Strong foundation in DSA and cybersecurity practices.

## Skills

- **Languages:** Python, PHP, Java, JavaScript, SQL
- **Frameworks:** Django, Laravel, Node.js, React, NestJS
- **Databases:** MySQL, MongoDB
- **Cybersecurity:** OWASP Top 10, Burp Suite, Secure Coding, SQLi, XSS
- **DevOps / Tools:** Docker, Jenkins, Kubernetes, Git, Postman, VS Code, Linux CLI
- **Concepts:** RESTful APIs, MVC Architecture, JWT Auth, Agile, Microservices, RabbitMQ

## Experience

### Netwin Infosolutions, Nashik

August 2024 – Present

#### Jr. Software Engineer

- Completed structured training in Laravel and transitioned into full-time project work.
- Delivered new features and fixes across Laravel-based applications, including a multi-tenant clothing eCommerce platform with domain-specific storefronts and individualized product catalogs.
- Implemented advanced product customization tools such as logo uploads, dynamic positioning, and admin-side configuration to enhance store flexibility.
- Contributed to a legacy NestJS + ReactJS project by integrating OpenAI Assistants for intelligent automation, streamlining documentation workflows, and improving productivity.
- It served as Scrum Master, facilitating agile ceremonies, sprint planning, and team coordination to ensure timely delivery.

### Netwin Infosolutions, Nashik

February 2024 – July 2024

#### Software Engineer Intern

- Completed full-stack training with emphasis on Django and REST API development.
- Developed a service ticketing system using Django REST Framework with RESTful APIs and an admin panel for client-manager-technician coordination.
- Implemented auto-assignment logic for technician allocation based on real-time availability.
- Introduced time-based billing automation to reduce manual intervention.
- Provided backend APIs for seamless integration with the mobile app team.

## Education

### R. C. Patel Institute of Technology, Shirpur

2020 – 2024

Bachelor of Technology in Computer Engineering

CGPA: 7.65/10

## Certifications

### Google Cybersecurity Professional Certificate

[View Credential](#)

- Completed a comprehensive program covering network security, system security, threat modeling, and incident response.
- Gained hands-on experience with tools like Wireshark, SQL, Linux command line, and SIEM systems.

## Projects

### Portfolio Website using React

[rohitpatil.tech](#)

- Built a personal portfolio website using React, and Tailwind CSS, featuring a responsive and interactive design.
- Showcases resume, technical skills, and project work in a clean, professional layout.
- Developed a blogs section to share insights, learning experiences, and technical write-ups.

### Smart Resume Analyzer & Job Matcher

[smartresumeanalyzer-fro.vercel.app](#)

- Developed a MERN stack application that leverages AI (Groq) to extract and analyze resume data, providing job role suggestions.
- Designed and deployed a responsive, dark/light mode UI using Tailwind CSS, with secure file upload and MongoDB Atlas integration.

### Laptop Shopping Webapp using MERN Stack

- Built an online laptop shopping platform using React.js (frontend), Node.js and Express.js (backend), and MongoDB (database).
- Designed and implemented RESTful APIs for user management, product catalog, and shopping cart features.
- Created an interactive UI with dynamic routing, state management, and responsive design.
